## AI and Data Science Enthusiast

An AI and Data Science enthusiast with a background in Information Technology and hands-on experience in Python, SQL, and data analysis. Skilled in data cleaning, preprocessing, exploratory data analysis, and building basic machine learning models using libraries such as Pandas, NumPy, and Scikit-learn. Passionate about Artificial Intelligence, Machine Learning, Agentic AI, and solving real-world problems through data-driven solutions.

## Technical Skills

| | | |
|---|---|---|
| **Languages** | : | Python, SQL, HTML, CSS, Javascript, React |
| **Libraries** | : | Pandas, NumPy, Matplotlib, Scikit-learn |
| **Databases** | : | MySQL, PostgreSQL |
| **Dev Tools** | : | Git, GitHub, VS Code, Jupyter Notebook |

## Experience

**Data Science Intern** June 2026 – July 2026
*Technify* *onsite*

- Performed **data collection**, **cleaning**, and **preprocessing** using Python, **Pandas**, and **NumPy** to prepare datasets for analysis and modeling.
- Conducted **exploratory data analysis** and statistical analysis, and created visualizations using **Matplotlib** and **Seaborn** to derive meaningful insights.
- Built and evaluated machine learning models using **scikit-learn**, and presented analytical findings to support data-driven decision making.

**Artificial Intelligence Intern** June 2025 – July 2025
*Technify* *onsite*

- Participated in the **design, development**, and **implementation of AI-driven solutions** for practical applications.
- Applied Machine Learning, **data preprocessing**, and **model evaluation** techniques following industry best practices.
- Worked on algorithm optimization, **workflow automation**, and **integration of AI models** into practical solutions.

## Education

**University of Sindh** Jamshoro, Sindh, Pakistan
*Bachelor of Science in Information Technology* *Feb 2022– Mar 2026*

## Projects

**Childcare Affordability Analysis: Arizona** | *Python, Pandas, NumPy, Matplotlib, Excel*

- Analyzed childcare pricing data across 15 Arizona counties ( 5.97M population), comparing center-based and home-based care for 2018 and 2023.
- Cleaned the dataset by fixing non-numeric values, handling missing data, and standardizing county names.
- Studied how childcare burden varies with county demographics, identifying Gila County as most affected for the Black population.

**End-to-End ETL Pipeline: Python, PostgreSQL |** Python, Pandas, Requests, SQLAlchemy

- Built an end-to-end ETL pipeline to extract user data from a **REST API** and load it into **PostgreSQL.**
- Cleaned and transformed **JSON** data using **Pandas**, handling missing values, duplicates, and standardizing columns.
- Automated data loading using **SQLAlchemy** and validated successful insertion of 10 records into **PostgreSQL**.

## Certifications

- Certified Python Developer PITP Govt Of Sindh
- Certified Data Scientist PITP Govt Of Sindh
- Deploy and maintain data pipelines and workloads with Azure Databricks Microsoft
- Data Analytics with AI Sololearn
- Data Cleaning Kaggle
- Explore core data concepts Microsoft
- Introduction To AI Google
- Artificial Intelligence and Data Science SMIT

## Languages

| | |
|---|---|
| English | Fluent |
| Urdu | Native |
| Sindhi | Native |
